THE LOOK OF FROST OR SNOW IN A LUXURIOUS CRYSTALLINE OPAQUE TOPCOAT.

The idea comes from that blast of freezing cold air that hits you when the Gatti guy on the beach takes the lid off his icecream cart. It's a nice feeling on a really hot day. So why shouldn't we add colour to frost and give it dimension, make it look like the inside of a Gatti cart, in all sorts of colours?
