**PRODUCT DESCRIPTION**
A soft water based finish that leave a galvanised metal look.

**COLOUR RANGE**
A standard range of 2 colours which are tinted at point of sale:
- Sheet metal
- Hammered

Please ensure sufficient quantities are ordered to complete the job.

**RECOMMENDED USES**
INTERIOR surfaces only. Can be applied to most correctly prepared interior surfaces.

**NOT RECOMMENDED FOR**
Not suitable for use on profiled/textured plasters.
It is not suitable for any exterior surfaces and wet areas eg. Showers etc.

**SURFACE PREPARATION**
PLEASE NOTE: Correct preparation is essential. All surfaces must be sound and prepaired in the recommended manner. Please refer to the Standard Paintsmiths Preparation Specifications. A copy of this is available from your Paintsmiths Store or can be downloaded from our website.

**APPLICATION**
Must only be done onto a correctly prepared substrate.

**Tin Pot Paint is a 3 coat system.**

**Priming/Undercoat Application**
Spot prime all filled and bare areas with 1 coat of Masonry primer, allow to dry and then apply 1 full coat of Midafelt 220 (tinted to approved shade) using a lambswool roller. Allow to dry for at least 4 hours.

**Tin Pot Application and Tin Pot Glaze Application**
Apply 1 coat of Tin Pot Paint to chosen area with a lambswool roller to achieve a uniform silver grey finish. Allow +/- 4 hours to dry.

Once dry, apply 1 coat Tin Pot Glaze with a lambswool roller and then immediately lay off with the specialized Tin Pot roller. To achieve best results this product should be applied with 2 applicators – the first applying the Tin Pot Glaze and the second patterning with the Tin Pot Roller. Rinse the specialized Tin Pot Roller clear and wipe dry from time to time.

Spread evenly and maintain a wet edge at all times while applying Tin Pot Paint and Glaze to achieve a finish free of joint lines. Always work from one natural break to the next before taking a break.

**SPREAD RATE**
- Primer: +/- 8m²/litre
- Tin Pot Paint: +/- 8m²/litre
- Tin Pot Glaze: +/- 12m²/litre

**CLEANUP**
Wipe excess paint from brushes and rollers using an absorbent cloth before washing with water.
